RSCVD is a Community of volunteer libraries providing high-quality, open and collaborative resource-sharing service to help librarians to ensure universal and equitable access to information

THE PROBLEM

In 2020, the COVID-19 situation forced academic libraries to move exclusively to the Web. Library closure led to key issues for the scientific community.

Absence of information on
e-book and electronic
resource availability

Problems in delivering
digital documents to users

Unavailability of physical collections
and the lack of digitization of paper
assets

Inadequacy of catalogues

Lack of competencies in searching
and retrieving digital documents
